

# LET'S MAKE ROYAL CROWNS!

## INCLUDED IN THE KIT:

- Two 2"x11" headband strips
- Two 1.5"x10" inner crown strips
- Six 1.5"x8" outer crown strips
- Half sheet of cardstock
- Tissue paper
- Paper fastener
- Jewels & sequins

## YOU WILL NEED:

- Glue
- Pencil
- Scissors
- Coloring utensils of your choice
- Tape or stapler (optional but helpful)
- Further decoration (optional)

## THINGS TO NOTE:

- If coloring or painting your strips before assembly (recommended), note that the inner crown strips will not be seen when the crown is completed.
- If gluing, you may need to wait a moment for things to dry before moving onto the next step.

## TO MAKE THE CROWN:

Step 1: Start with the headband strips and attach them together so they make a straight line. Then measure them along your head for the perfect fit. Mark where they meet and attach the strips so you have a circle.

Step 2: Next we are going to attach the outer crown strips. Attach the flat side of the strip on the inside of the crown at 2, 4, 6, 8, 10, and 12 o'clock. Try and attach them all at the same height.

Step 3: Grab the inner crown pieces. Those will be attached at both ends inside the crown. They will make the letter X when completed. You will need to line up the pre-punched holes in the middle.

Step 4: Glue the tissue paper over the inner crown X. This is considered the lining of the crown.

Step 5: If you want an ornament on top of your crown, grab the half sheet of cardstock and draw it out. Make sure to give it a platform so it can be attached to the crown with the paper fastener.

Step 6: Time to assemble what's left! Grab the paper fastener. First go through the ornament on top, then gather the outer crown pieces onto the fastener. Next you will pierce it through the tissue paper and finally through the inner crown pieces. Open the fastener so it is secure and can't come undone.

Step 7: Attach a piece of scrap paper or tape over the end of the fastener so it doesn't get caught in your hair when wearing it.

Step 8: Decorate!!
